

Heart of the Hess

Dec 2020

This year is totally different from last year. There are many setbacks and obstacles to overcome. Susie and I are essential workers, our jobs were crucial to the training. Each future missionary still needs to be trained how to learn language, culture and do Bible translation. This is a large part of the Ethnos360 missionary training. There are a lot of obstacles that inhibit the training, water main lines break, tires go flat, older buildings were demolished, and cars make awful squealing sounds. These problems keep people from hearing about Jesus Christ the Savior of the world. The task is great, but GOD is in control!

Susie volunteers in childcare so that the mothers can be in classes. **Pray** for Susie as she takes care of the 9 babies in her room exactly like the mothers would like them to be taken care of. Oh yes, this one naps at 10:00am, the other needs to have a diaper changed now, while showing love and care to all the children. The mothers are so thankful for the childcare workers.

Every day I, Dwayne have a chance to encourage and listen to a missionary in training. I have seen God work in amazing ways. Can I manage my life and family, marriage and ministry to be a positive influence in the lives of the students? **Pray** for Dwayne.

Pray for patience to wait on Gods timing. God is a Great God. Each month God provides for our needs but some months we see God answer at the last day.

Pray for Kira in she is cleaning houses and volunteering in childcare at the training center.

Pray for Kegan. He has a job and would like to get his driver's license soon. Things that happened yesterday are hard for him to process. **Pray** that he would be able to share feelings.

Asher (12th grade) is enjoying his classes but needs to not forget his coffee so he can function in classes in the afternoon. He has his driver's license and drives to school. **Pray** for Asher.

Adellie (11th grade) is enjoying art classes, but not writing essays. She is taking some pottery classes. **Pray** for Adellie for her writing and spelling. It is a struggle to put thoughts on paper.

Merry Christmas and a God filled New Year!!!!!!

Dwayne and Susie Hess

Ethnos360 Training, 134 main Dr Roach, MO 65787

When you need a wrench this size you know there are problems.

God provided free beef

Some people expect the power steering hose to not leak on their car.

I have the coolest wife and children!!
